Uniformed Services University for the Health Sciences Learning Resource Center

Katie Chan

About Uniformed Service University for the Health Sciences (USUHS)
The mission of USUHS (2013) is to “...educate and prepare uniformed services health professionals, officers and leaders to directly support the Military Health System...”

Graduate programs include:
- F. Edward Hébert School of Medicine;
- Biomedical sciences and public health;
- Graduate School of Nursing;
- Postgraduate Dental College.

The Learning Resource Center (LRC)
The LRC supports the mission of USUHS by providing access to physical and electronic resources, research support, and library and research instruction.

Projects and Responsibilities
During my field study my projects included:
- Designing a medical student textbook corner.
- Leading a staff workshop on apps for personal emergency preparedness.
- Creating a presentation chronicling the history and advancement of the LRC website.
- Constructing a display board on disaster preparedness apps for medical students.
